

Yale New Haven Health System Center for Healthcare Solutions

COURSE LISTINGS AND OFFERINGS

Spring/Summer 2010

The Yale New Haven Health System Center for Healthcare Solutions (YNHHS-CHS) has leveraged its clinical and operational understanding of healthcare delivery and its national network of partners and subject matter experts to disseminate programs and services in 47 states and territories across the country and internationally.

YNHHS-CHS has developed and adapted healthcare-focused best practices and evidence-based programs to address current healthcare challenges and national healthcare priorities. These challenges and priorities include meeting the requirements of The Joint Commission's National Patient Safety Goals to improve healthcare quality and minimize "never events" identified by the Centers for Medicare and Medicaid Services. YNHHS-CHS programs include education and training as well as assessments, drills and exercises, planning and program implementation and evaluation.
